

# Report of Medical History

Student Name: \_\_\_\_\_

Students are required to have a current Report of Medical History if they plan to live in university housing. These records can be obtained from the high school, college or university previously attended, a private physician, public health records, and/or military records.

## What immunizations do you need?

1. The **Tetanus-Diphtheria and Pertussis (Tdap)** vaccination is **required every ten years**. It is very important that the student is up to date on this vaccination because if any injury occurs (i.e., stepping on a rusty nail, being bitten by an animal, being involved in an auto accident) the student could contract Lock Jaw or Tetanus. The Tdap could prevent these illnesses as well as diphtheria and whooping cough.
2. The **Measles, Mumps, and Rubella (MMR)** vaccine is required. You must have record of two doses of MMR before you can move in.
3. The **Meningitis** vaccine protects against meningococcal disease, a rare, but potentially fatal, bacterial infection. Due to lifestyle factors, such as close living situations, irregular sleep patterns, and shared personal items, college students living in residence halls are more susceptible to meningococcal disease than the general population. **Meningitis vaccine must have been renewed within the last 5 years**
4. The Tuberculosis Skin Test (TBST) or a chest x-ray **must be done if the answer to ANY of the below questions is YES, or if you are an international student**. The PPD tuberculosis test should be done no earlier than 12 months prior to beginning classes. Written results by a health provider are required. Results must be recorded as "positive" or "negative" and the millimeters of induration must be included. If the answer to all the below questions is NO, a tuberculin skin test should not be done. *PLEASE NOTE: If you have had a positive tuberculin skin test in the past, you do not need another test. Submit a record of the date of the positive result and any treatment given.*

- To the best of your knowledge, have you ever had close contact with anyone who was sick with tuberculosis (TB)?  
 Yes  No
- Were you born in one of the countries listed below?  
 Yes  No
- Have you traveled or lived for more than one month in one or more of the countries listed below?
